

This detailed site plan illustrates the layout of a wastewater treatment plant (STEA). The facility is organized into several key areas:

- Basins and Retention Areas:**
 - Basin 11:** A large rectangular basin at the top left.
 - Retention Basins (Bassin de rétention):** Two rectangular basins, one labeled "400 m²" and another "400 m²", located below Basin 11.
 - Basins 1-6:** A row of six rectangular basins at the bottom, each labeled with a number and area: 1 (350 m²), 2 (350 m²), 3 (350 m²), 4 (350 m²), 5 (350 m²), and 6 (700 m²).
 - Basins 7-11:** A row of five rectangular basins on the right side, labeled 7 (400 m²), 8 (685 m²), 9 (400 m²), 10 (400 m²), and 11 (400 m²).
- Infrastructure and Access:**
 - Roads:** "Route Départementale" runs vertically on the left, and "Route RN 116" runs horizontally at the bottom left. "Vers RODES" is indicated at the top left.
 - Canals:** "Canal d'arrosage dit Rec de Dail" runs vertically on the right side.
 - Walls and Barriers:** "Mur de clôture" (fence wall) and "Mur de soutènement" (retaining wall) are shown along the perimeter and between basins.
 - Access Points:** "Rampes d'accès en terre" (earth access ramps) are marked at several locations.
 - Other Features:** "Buse Ø400", "Buse Ø450", "Buse Ø300", "Avaloir" (overflow), "Piquet métallique" (metal stake), "Traces de passage" (passage traces), "Marches" (stairs), "Escalier" (staircase), "Vanne" (valve), "Ouvrage maçonné" (masonry structure), and "Trails emboîtés" (interlocking trails) are also labeled.
- Orientation and Scale:**
 - A compass rose is located on the right side, pointing North.
 - A scale bar at the bottom right indicates a distance of "8.26".
